Product highlights

DivX Ultra Certified

DivX Ultra combines DivX playback with great features like integrated subtitles, multiple audio languages, multiple tracks and menus into one convenient file format.

HDD Media Jukebox

Philips Hard Disk/DVD Recorders offer the ultimate simplicity in enjoying your digital content right in the living room. Via its USB connection, media files such as MP3, WMA, JPEG and DivX can be transferred directly from USB thumb-drive onto its integrated Hard Disk. Once the digital media is stored, the content can be organized in a very easy way and played back on any TV or home theater system.

File transfer: HDD, DVD, USB

Thanks to the complete file transferability, you can transfer or copy your multimedia files from one source to another regardless if the files are stored in the recorder HDD, a DVD disk, or on your USB flash drive.

One Touch Pause Live TV

Pause Live TV puts you in absolute control. Once the recorder is turned on, a large built-in memory automatically starts recording the program you are watching – allowing you to pause, replay or save the program, anytime. If you need to take a break, you can pause your 'live' TV program with just one touch of a button, and resume watching when it suits you.
